Visionary Design

Innovative and influential, John Lautner is an architect's architect.

JOHN LAUTNER (1911–1994) ATTAINED A CULTLIKE STATUS IN THE world of architecture and design, and his work includes some of the most important examples of architecture in Southern California. The Hammer Museum brings Lautner's legacy and creative process to a wider audience by presenting the first major exhibition of his work, *Between Earth and Heaven: The Architecture of John Lautner*. It features large-scale models, digital animation, and a wealth of archival materials including drawings, renderings, study models, and construction photographs. Through October 12. Tel: 310-443-7000 or hammer.ucla.edu
